

REMARKS

Claims 1-29 and new claims 42-43 appear in this application for the Examiner's review and consideration. The new claims are supported by the specification and original claims so that there is no issue of new matter.

In response to the restriction requirement made in the office action, Applicants elect, with traverse, the invention of Group I, apparatus claims 1-28, for prosecution in this application. As new claims 42-43 are directed to an apparatus, those claims should also be examined at this time. It is respectfully submitted that these claims are in condition for allowance.

Claims 29-41, directed to a method, have been cancelled without prejudice to the applicants' rights to file a divisional application for the subject matter of those claims.

Any questions regarding this matter should be directed to the undersigned.

Respectfully submitted,
